2015 4th International Conference on Mechanical, Control, and Electronic Information will be held in Fuzhou, China, during June 27-28, 2015. ICMCEI is sponsored by Minjiang University.

All accepted papers of ICMCEI 2015 will be published by the publisher ASME, which will be indexed by EI Compendex and ISI/ProQuest. Some excellent papers would be recommended to be published in EI or ISI journals.

The ICMCEI conference is an international forum for the presentation of technological advances and research results in the fields of Mechanical, Control, and Electronic Information. The conference will bring together leading researchers, engineers and scientists in the domain of interest from around the world. We warmly welcome previous and prospective authors submit your new research papers to ICMCEI Conference, and share the valuable experiences with the scientist and scholars around the world.

Note: The authors of Asia outside will be free of the registration fee.
There is no time limit.

- TOPICS:
- Applied Mechanics
 - Automation, Mechatronics and Robotics
 - Automotive Engineering
 - CAD/CAM/CAE
 - Dynamics and Vibration
 - Fatigue and Fracture
 - Fluid Mechanics and Machinery
 - Machinery and Machine Design
 - Manufacturing and Production Processes
 - Marine System Design
 - Material Science and Processing
 - Mechanical Design
 - Mechanical Engineering
 - Discrete Event Systems
 - Fuzzy and Neural Systems
 - Industrial Process Control
 - Intelligent and AI Based Control
 - Intelligent Automation
 - Modeling of Complex Systems
 - Multi-agent systems
 - Network Intelligence and Network Control
 - Nonlinear Systems and Control
 - Optimal Control

The screenshot shows the Engineering Village search interface. At the top, there is a navigation bar with 'Search', 'Selected records', 'Settings', and 'Tags & Groups'. Below this is a search bar containing 'ICMCEI (WJ All fields)'. The main content area displays search results for '3rd International Conference on Mechanical, Control, and Electronic Information (ICMCEI 2014)'. Three results are visible, each with a title, source information, and options for 'Abstract', 'Detailed', 'Show preview', and 'Full Text Links'. A sidebar on the left allows refining results by 'Author' (listing names like Zhang Qing, Chang Wen-Yuan, etc.) and 'Author affiliation' (listing institutions like Kunming University Of Science And Technology).
